

Fellow AYSO Leaders, Families & Players:

In an abundance of caution after reviewing current state of events, advisories, along with many major events and sports teams suspending activity, & with incoming weather pattern, we have made the decision to be on the safe side with our families and SUSPEND all AREA 11 E AYSO practices and Matches until Further Notice, effective immediately.

This does NOT currently include Extra or Section Play (16/19). That play remains up to RC and Section. If a team decides not to play at Section level, the RC must notify Section of that decision.

This SUSPENSION of play DOES include the Area E Extra PDI Spring Development program.

This should reduce stress to families related to player contact and allow families to focus on other family current needs.

AREA will re-evaluate the formal guidance and activity at the end of next week and make a determination as to re-start of the Spring season. As of now, this will be a week to week evaluation based on advisories and conditions related to this illness.

Also...WESTERN STATES playoffs have been CANCELLED.

Please monitor website and emails for additional details next week.

David & I will communicate as additional details are developed.
